

Nancy Oxenberg, President

Nancy Oxenberg has been an authorized lead assessor since 1995 and is a graduate of the first SCAMPISM lead assessor class offered by the SEI[®]. She has performed over 40 software appraisals including CBA-IPISM assessments, SCAMPISM assessments, mini-assessments, and Software Process Assessments (SPA) throughout the United States, Canada, and Europe. Nancy is one of the most active lead assessors in the industry. She has over 25 years of project management and software development related experience. Nancy has successfully worked with organizations of all sizes from 12 to 1600 individuals residing globally.

As a process improvement manager for a large multi-national corporation, Nancy developed and implemented her division's plan for software process improvement to comply with SEI levels 2 and 3. Her responsibilities included the management of all process improvement activities, process design and definition, process training, management training, consultation, quality assurance and auditing. As an authorized lead assessor, she trained and lead assessment teams throughout the corporation in performing appraisals of all five levels of the SW-CMM[®].
